Experience

Hi Pioneer - A Startup Company, KSR College of Technology, Tiruchengode

July 2023

Inclusive Community

- Learnt about web technology , including HTML, CSS, JS. And going further expanded my scope in front end by Bootstrap.
- Made many beginner projects in my creative way. Always been motivated to learn something new.

Completed a web development internship with CodSoft (Online)

August 2024 - September 2024

- This experience has been a rewarding journey, where I got to work on a variety of tasks and projects, further honing my web development skills and expanding my knowledge of the latest technologies.
- A huge thank you to the CodSoft team for their guidance and support throughout the process! I'm incredibly proud of the growth and milestones I've achieved and look forward to using these skills in future projects.

Projects

Bill generator | *HTML, CSS, Java Script, Java*

- Developed a web-based Bill Generator using HTML, CSS, JavaScript, and Java to automate invoice creation and management.
- Implemented dynamic form fields, calculations, and user input validation for generating detailed and accurate billing statements.

Portfolio | *HTML, Bootstrap, Java Script*

- Developed a personal portfolio website using HTML, Bootstrap, and JavaScript to showcase projects, skills, and professional achievements.
- Applied Bootstrap's responsive design framework and custom JavaScript for interactive elements, enhancing user experience and ensuring compatibility across devices.

Gym web page | *HTML, CSS, React JS*

- Built a responsive gym web page using HTML, CSS, and React.js to showcase services, membership plans, and client testimonials.
- Integrated dynamic components and optimized UI for seamless navigation and enhanced user experience.

Technical Skills

Programming Languages: C, Java, HTML/CSS, SQL, Java Script.

Frameworks: Bootstrap, React JS.
